

TiTAN WASH™

High Performance Elastomeric Coating

PRODUCT DESCRIPTION

TiTAN WASH is a concentrated, biodegradable cleaner manufactured using the highest quality, environmentally friendly, raw materials and contains zero VOCs. TiTAN WASH removes grease, oil, dirt, pollen, tree sap, and more. TiTAN WASH is safe for shrubbery and plants near buildings; it does not contain harmful chemicals that would potentially kill evergreens or other delicate plants.

PRODUCT USE

TiTAN WASH is the essential first step in the TiTAN RDS, dilutes easily, and prepares substrates for the next step in the TiTAN RDS. TiTAN WASH rinses completely and is formulated for use in conjunction with the TiTAN RDS system. For use on metals, TPO, concrete and other roofing substrates.

APPLICATION

Remove any loose debris from roof surface. Dilute TiTAN WASH according to dilution table. TiTAN WASH can be sprayed directly onto the roof or used with pressure washing auto injection tubes. Heavily soiled areas may require undiluted TiTAN WASH and agitation to penetrate dirt and oils. Apply TiTAN WASH, pressure wash entire surface, and rinse thoroughly. Allow roof to dry completely before moving onto the next step in the TiTAN RDS, See TiTAN Roof Defense System Standard Operating Procedures, Product Labels, and Limited Warranty documents for more information.

TECHNICAL DATA

PROPERTY	VALUE
Appearance	Blue Liquid
Odor	Mild
pH (2%)	11.0 ± 0.5
Solubility	Water
Storage	40°F - 120°F
Stability	Stable in normal conditions

DILUTION RATES

SOIL TYPE	RATIO
Grease	No Dilution
Heavy Oils	3 : 1
Light Oils	10 : 1
General Purpose	20 : 1
