

PRODUCT INFORMATION

PHARAGENT 100 LF

PHARAGENT 100 LF is used as a pH adjustment in wastewater treatment facilities where acidity is a problem. PHARAGENT 100 LF is specifically designed for ease of application and complete miscibility with wastewater in aerators and/or settling tanks. Its low freezing point is particularly well suited to outside storage and for direct application situations. PHARAGENT 100 LF allows the operator easy, controlled and clean application of a pH increaser without the solubility problems, dust and mess of dry lime.

SPECIFICATIONS:

Appearance:	Clear liquid
Specific Gravity:	1.51
pH (2% solution):	12.55
Freezing Point:	Store above 40 ^o F

APPLICATION:

PHARAGENT 100 LF can either be pumped into wastewater treatment systems or through direct application into aeration tanks and/or settling tanks.

Usage depends on the degree of acidity of wastewater and flow rates required by individual treatment facilities.
