

PRODUCT INFORMATION

NU VIEW

Nu View is a specially designed product used to restore truck and automobile mirrors that have been damaged by acid rain, commercial washes and hard water. This damage is in the form of water spots that can create blinding conditions increasing the risk of accidents and injury. Until now, these spots have been impossible to remove causing trucking companies to replace exterior mirrors periodically. Replacing mirrors has cost transportation companies millions of dollars nationally.

With Nu View, these nuisance deposits are removed in minutes returning the surface of the mirror to its original condition-and it's done SAFELY.
