

PRODUCT INFORMATION

CAL AWAY

CAL AWAY is a liquid chelating agent used to remove calcium and magnesium from water. This will soften the water prevent the build-up of these insoluble minerals in pipes and equipment. It improves the results in cleaning, dyeing and in any use where hardness in water is a problem.

CHARACTERISTICS:

Appearance:	Clear Liquid
Specific Gravity:	1.4
Pounds per Gallon:	11.68
pH :	7.0
Volatile Organic Compounds	None

The amount of CAL AWAY required will differ depending of hardness of water. For complete removal of hardness use 100 grams of CAL AWAY for every 11 grams of hardness as calcium carbonate.

The data and suggested formulations in this bulletin are based on information believed to be reliable and are offered solely for evaluation, investigation and verification of the numerous factors affecting results. Paradigm Lab's products are sold with the understanding the purchasers will make their own tests to determine the suitability of these products for the particular use. We assume no liability or responsibility for any damage to person or property resulting from or incident to the use of our products.

Statements concerning the use of Paradigm Lab's products are not be construed as recommending the infringement of any patent, and no liability for infringement arising out of any such use is assumed.
