

PRODUCT INFORMATION

SR-1215

SR-1215 is a highly efficient multi-purpose caustic cleaner. This product has been developed to clean heavy grease and soils on railcars, heavy equipment, machinery and floors. SR-1215 has also been used to clean the heavy film build up on glass associated with soot, diesel fumes and road soils.

SR-1215 exhibits excellent surface wetting properties to penetrate and lift soils so they can be washed away with minimal scrubbing. SR-1215 is water soluble, environmentally safe, is completely free-rinsing, and leaves a clean, residue-free surface. (Please note that due to its caustic composition SR-1215 should not be used on white metals.)

PHYSICAL PROPERTIES:

Appearance:	Clear liquid
pH:	> 13
Odor:	Mild
Solubility in water:	Completely soluble in water
Specific Gravity:	1.06

Since SR-1215 is highly concentrated compound, various dilutions with water can be used depending on the type of soils and soiled surfaces being treated.

The data and suggested formulations in this bulletin are based on information believed to be reliable and are offered solely for evaluation, investigation and verification of the numerous factors affecting results. Paradigm Lab's products are sold with the understanding the purchasers will make their own tests to determine the suitability of these products for the particular use. We assume no liability or responsibility for any damage to person or property resulting from or incident to the use of our products.

Statements concerning the use of Paradigm Lab's products are not be construed as recommending the infringement of any patent, and no liability for infringement arising out of any such use is assumed.
