

# PRODUCT INFORMATION

## PRESS RELEASE 918

PRESS RELEASE 918 is a safe, mild, and environmentally friendly compound used in applications in the paper, textile, mining, and transportation industries. Due to their effectiveness to wet out surfaces as well as chemically removing oils, greases, tars, and pitch, and washing them away with water, they are an excellent choice.

### SPECIFICATIONS:

Appearance: Clear, semi-viscous liquid

Specific Gravity: 1.004

pH: 918:  $7.5 \pm .5$

Ionic Characteristics: Nonionic/anionic

Since each application may require different amounts, it may be necessary to test various strengths. Usually starting points are ½% to 2% solutions.

For removal of dissolved oils, tars, and pitch (stickies) from water, PRESS RELEASE 918 is recommended.

The data and suggested formulations in this bulletin are based on information believed to be reliable and are offered solely for evaluation, investigation and verification of the numerous factors affecting results. Paradigm Lab's products are sold with the understanding the purchasers will make their own tests to determine the suitability of these products for the particular use. We assume no liability or responsibility for any damage to person or property resulting from or incident to the use of our products.

Statements concerning the use of Paradigm Lab's products are not be construed as recommending the infringement of any patent, and no liability for infringement arising out of any such use is assumed.
